Subj: MCAS NEW RIVER REQUEST FOR ANALYSIS

Ref: (a) Mtg btwn AC/S FAC and Dir, NREAD on 28 Oct 87

Encl: (1) CO MCAS NR memo 6280 GSO of 23 Oct 87

1. In accordance with the reference, the enclosure is provided for funding guidance.
2. Air Station personnel have advised the dumping apparently was by military personnel. The manhole was a concrete structure removed from the ground and left by the contractor. The dumping apparently occurred later. Air Station personnel are continuing to look into the matter.
3. NREAD is planning to go ahead with sampling but will not address funding source until guidance is received from the Assistant Chief of Staff, Facilities.

(Attn: Director, Natural Resources & Environmental Affairs)

Subj: REQUEST FOR ANALYSIS

1. It is requested that samples be taken and analysis provided for the following containers:
  - a. One 55-gallon drum located at Naval Air Maintenance Training Detachment 1047, building AS-222. It is believed to contain epoxy primers, methyl ethyl ketone, methyl isobutyl ketone, toluene, freon, and other petroleums, oils and lubricants (POL's).
  - b. Thirteen 55-gallon drums located adjacent to the aircraft washrack, AS-505. These drums are filled with a mixture of rainwater, POL's, and fluorescent penetrant that was pumped out of a manhole abandoned by a contractor. A composite sample can be made from all drums. A work request has been submitted to remove the emptied manhole.
2. Point of contact at this Command is Mary Wheat, extensions 6506 or 6518.

Subj: UNDERGROUND TANKS BUILDING #25

1. It is requested that an analysis be made on three underground tanks located at Building #25 Clean and Press Shop.
2. It is further requested that these tanks be pumped out and removed from Building #25 as they are not used in connection with the Clean and Press facility.
